Creative, dynamic and multi-talented, I am currently working at Sumit as a Software Developer. I'm looking for an opportunity starting **november 2024** as a **Software Engineer.**

Proficient in **full-stack web development**, my diverse experiences have given me a **global vision** and an excellent **functional understanding.** Combined with my rigor, this allows me to **maximize the value** I bring to my work.

2024
2022

.NET / Angular Software dev.   Sumit

CESI Lille apprenticeship. Within the Projects Center, I bring value as a full-stack web developer. My missions:
- Full-stack .NET 6, Angular 14 / 17 redesign of an agro-industrial ERP.
- Analyses and POCs to evaluate technical choices (E2E testing, SQL linting, design patterns...)

1 y.
2022
2021

Développeur / Chargé de projet   Enedis
Symfony / Angular

CESI Lille apprenticeship.
Within the National Experts Center, my missions were:
- design, implementation and maintenance of an internal framework based around Symfony 6 and Angular 13
- industrialization of a decision-making support app POC (internal framework + Spark ETLs, Python, Java, Docker, Kubernetes)

2 y.
2021
2019

Développeur / Chargé de projet   Enedis
Symfony / Angular

Career change with CESI Lille from Studio Sound Engineer to Software developer. My missions:
- design, implementation and maintenance of multiple applications within a 30 people team distributed among Lille, Aix-en-Provence, Bourges et Caen (France).

5 y.
2021
2016

Owner / Studio sound engineer   Sonicfury

Managing my own recording and mixing studio in Arras, France.

Miscellaneous

Various jobs: fast food worker, agri-food worker, garbage collector, security guard, building worker...
